PROFILE INFO

Motivated Computer Science student with a strong interest in web development and cybersecurity. Comfortable with programming and building web applications, and gaining hands-on practice in ethical hacking through TryHackMe along with active participation in bug bounty programs. Looking to apply technical knowledge to real-world projects and grow as a developer and security researcher.

TECHNICAL SKILLS

- ◆ Web Development
- ◆ Programming
- ◆ Cybersecurity (TryHackMe)
- ◆ Bug Bounty Hunting

PRACTICAL EXPERIENCE

TRYHACKME

Completed hands-on rooms covering web exploitation, network fundamentals, and privilege escalation techniques to build practical cybersecurity skills.

BUG BOUNTY HUNTING

Actively practicing vulnerability discovery and responsible disclosure across bug bounty platforms to strengthen real-world security testing skills.

FOCUS AREAS

- Web Application Development
- Ethical Hacking & Cybersecurity
- Capture The Flag (CTF) Challenges

TOOLS & PLATFORMS

- ◆ Git & GitHub
- ◆ VS Code
- ◆ Linux
- ◆ TryHackMe Platform
